My name is Zhiyu Zhong and I am a motivated and enthusiastic Computing postgraduate at Cardiff University. I have gained knowledge in HTML & CSS, JavaScript, and Python during my postgraduate studies. I am highly enthusiastic with excellent communication skills and am currently seeking a role as a front-end developer or software engineer for a placement year of 7-12 months.

I will have a MSc in Computing with Placement from Cardiff University, where I study relevant modules such as Computational Thinking, Fundamentals of Programming, Software Engineering. Additionally, I have a BSc in International Business from South East Technological University in Ireland, where I studied subjects such as Organization Behavior, Applied Business Solutions, and Strategic Management. I also have a BSc in Financial Engineering from Guilin University of Electronic Technology in China, where I studied subjects such as Technique & Application of Database, Advanced Mathematics, Statistics, Experiment, Probability and Statistics, Introduction to Information Technology.

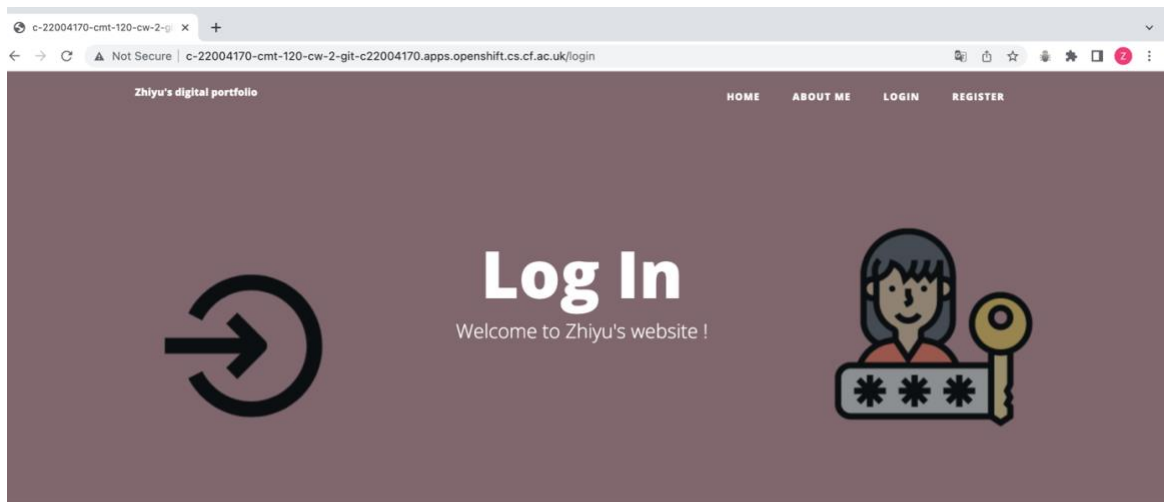

I am excited to put my skills and knowledge to use in a professional setting and am eager to continue learning and growing in the field of software development and technology."
